How A Payday Advance Works

The FAST CASH Payday Advance is an advance on your next Payroll Check. It is a simple process designed to help you handle unexpected situations. Simply follow the steps below to get your Fast Cash Payday Advance Today!

1. Completely fill out and [submit an application](#).
2. After verifying your employment and bank information, a Fast Cash representative will contact you and determine the nearest Fast Cash location.
3. Bring your CA I.D., a personal check, most recent pay stub and bank statement, along with an addressed bill as proof of residency.
4. The teller will check your paperwork and approve your Payday Advance amount based on your income.
5. You write a personal check and receive CASH ON THE SPOT!

The Amount of Advance will depend on your gross income as follows:

- \$ 200.00 gross per week qualifies for a \$ 100.00 Advance.
- \$ 400.00 gross per week qualifies for a \$ 200.00 Advance.
- \$ 500.00 gross per week qualifies for a \$ 260.00 Advance.

The teller will approve you for the above amounts based on your pay stub information. When you write your personal check to Fast Cash, you will include the 15% transaction fee. For example, a \$100 Advance will require a \$115 personal check. Once the Advance is given, the check will be payable in full on the Due Date.

The Due Date will be set for your next Payday, and must be within 14 days of the Advance. If you are paid monthly, you may only receive a Payday Advance within 14 days of your next Payday. On the Due Date, you can return to the store and pay cash to pick up the check, or you can instruct the teller to deposit your check.

Once the check has been picked up with cash or cleared by the bank, you will be eligible for another Fast Cash Payday Advance. You may then receive an Advance at any of our locations by showing proper identification (you must bring a check and have all current information on file). Note: At any given time, you may have only one outstanding Advance.
